REPORT ON ICT in College.

We, all teaching staff and non-teaching staff, worked hard for using ICT in our college for last five years. The students of our college are well informed with computer, web, sites, google use, email, etc. Because of our college ~~to~~ took initiatives for ICT use not only for our students but for our faculty too.

In the first year, all came to know the proper use of ICT for our personality development. They all benefitted by this.

In the second year, we wonderfully got success in handling ICT as part of our daily routine. More students were ready for preparing the exams as ~~MCQA~~ MCQA in this pandemic situation. All teachers used Google classroom, Zoom, Youtube, Google Meet, etc. for online classes of the students. We also conducted (MCQA) Examination on Google Meet or classroom (Google) of B.S.W. and M.S.W. We also conducted ^{many} seminar/webinar on online.

Thus, we are now felt satisfied with the improvement of our students. Because of ICT, All students are really ready and upto date for facing any issues related to ICT.
