Nagpur
Lifelong Learning & Extension
Committee

Introduction

It is functioning under the Board for Lifelong Learning and Extension to create skilled and learned human power through its various degree level programs and skill development program.

Extension Education is a two-way process which visualizes mutual sharing of resources between the community and the University for the development of both the common man and students.

The DLLE supports the communities based extension work activities in collaboration with its specific mandate to work for less privileged society and our efforts are to extend educational programs that will enhance and improve quality of life of such groups with the central objective of "Reach to the Unreached".

The students of a Degree college from the fact faculty are awarded 10 additional marks in the final exam on completion of 120 hours of work on the Extension work.

Objective

The objective of lifelong learning and extension are outlined below for making education relevant to real life situations:

- To serve as an intellectual intervention in the community's living problems which need to be overcome through an educational process
- To develop among students a sense of responsibility towards society
- To design programs that will help students to face life and its challenges and thus create an ambience for a learning society
- To prepare students for a greater social commitment
- To deepen the teacher's and students' knowledge through a wider exposure to real life situations through a variety of programs
- To enhance student employability skills
